

September 18, 2015

We initially hired TJC Construction based on their extensive experience and stunning portfolio. We were not disappointed!

From the start of the project to the finish, Tom, his crew, and all the trades that worked on our condo demonstrated the highest standards in workmanship, customer service and overall professionalism.

They worked very hard to give us exactly what we wanted.

And, if something was wrong, they were able to identify and fix it without being told. They were honest, straightforward and ethical each step of the way.

It's clear that TJC Construction takes tremendous pride in their work, and we couldn't be more thrilled with the final result.

We'd recommend Tom and his team to anybody... and regularly do!
